Vietnam Helicopter Corporation (VNH) is a state - owned Company operating in the general aviation industry with over 30 years of experience in helicopter services. With the staff of more than 120 pilots, a fleet of 25 modern helicopters (which is expected to reach 36 aircraft in 2020), a network of airports and bases nationwide, VNH annually performs approximately 16,000 flying hours, providing helicopter services for over 50 domestic and international petroleum customers in oil & gas exploration and production, Missing In Action (MIA) Program, tourism and medevac...

» FLYING FOR YOUR SUCCESS

Vietnam Helicopter Corporation, VNH is one of the leading helicopter operators in Southeast Asia, highly valued by its customers and partners for its high quality of service and strong commitment to safety.

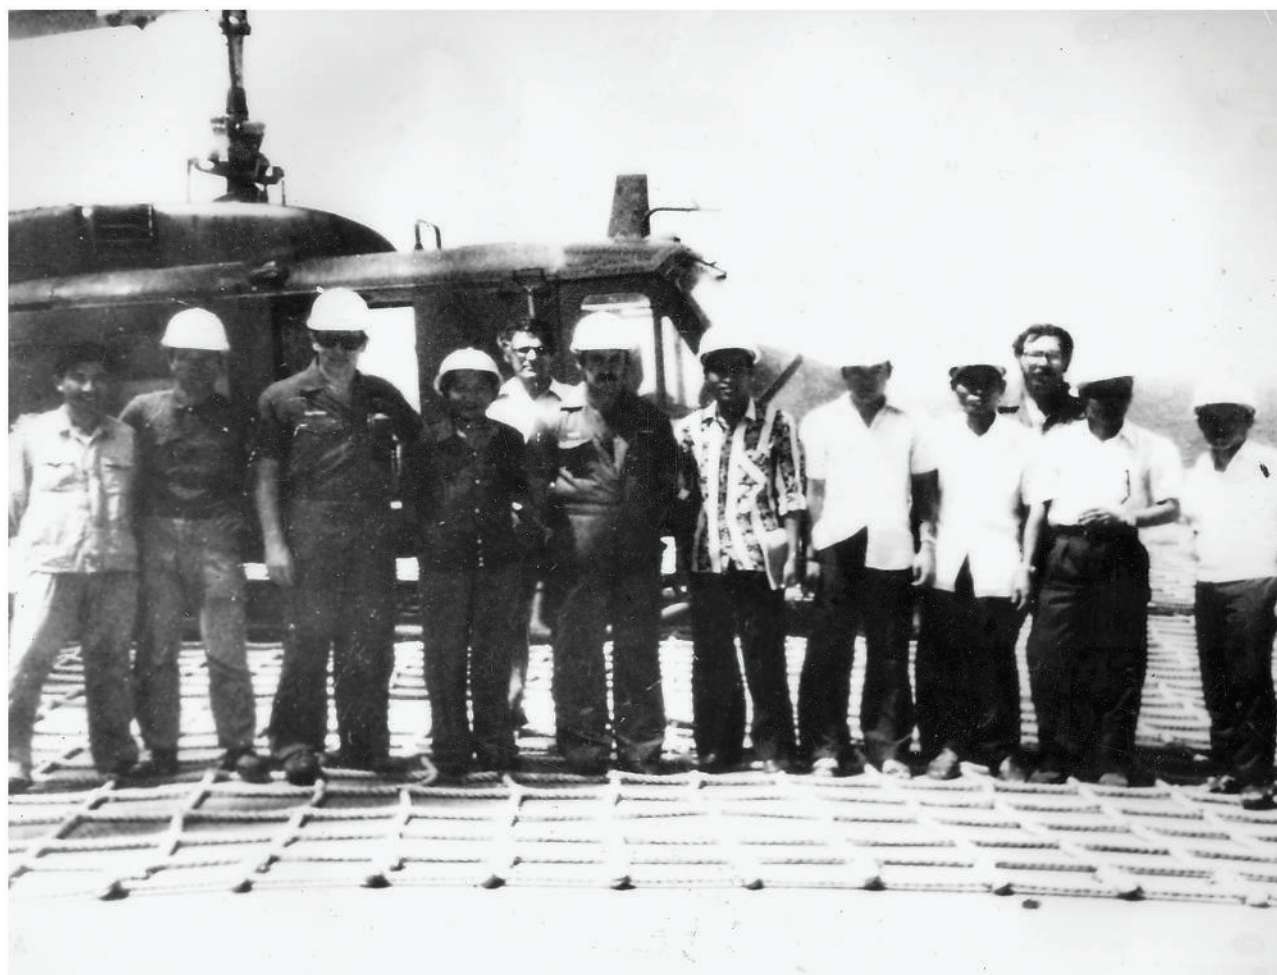

Since its establishment, VNH has operated with highly experienced commercial pilots whose qualifications well meet CAAV requirements. In addition, our engineering support operates to the highest degree of effectiveness and our maintenance centers are certified as AMO Maintenance Organizations.

VNH operates a fleet of modern helicopters with offshore configurations. We have contracted to provide services to over 50 domestic and foreign oil and gas companies. In addition to our offshore operations, we also provide tourist flights, ad hoc charter, media, search and rescue, VIP transport, aerial photography as well as services to the Missing in Action (MIA program).

Vietnam Helicopter Corporation, through its subsidiaries including Southern Vietnam Helicopter Company (VNH South), Northern Vietnam Helicopter Company (VNH North), VNH Training Center (VNH Training), Helicopter Technical Services JSC (Helitechco) and Hai Au Investment and Trading JSC (Haiau TIC) also leases its aircraft and provides crew to other helicopter operators in countries such as Norway, India, Malaysia and other countries in Southeast Asia and offers training programs for pilots and engineers employed by third party helicopter operators. Through its subsidiaries, it also provides full management services for private helicopter operators. Its engineering companies offer third party repair and overhaul as well as supply of helicopter parts. Fuel trading and real estate development completes the portfolio of its subsidiary companies.

Vietnam Helicopter Corporation strongly commits to **"Flying for Your Success"** through excellence in each flight.

HISTORY

Vietnam Helicopter Corporation (VNH) inherited over 30 years of experience of the helicopter services industry in Vietnam. Our first milestone was dated back to January 31st, 1979 when the first flight of UH1A reg. 779 successfully landed on the Dan Queen platform of Bow Valley (Canada). Three months later, Vietnam Helicopter Service Company was established in response to the increasing demands of the emerging oil & gas industry in Vietnam. Then, the first helicopter squadron under the Air Force established in 1983 and HELICOP VIETNAM in 1985 were VNH's precursors, pioneering in oil and gas support. The year 1985 also witnessed the contract signing between HELICOP VIETNAM and VIETSOVPETRO - our first and faithful customer up to present.

Embracing a new stage of development and integration, Service Flight Corporation of Vietnam (SFC Vietnam) was established on June 1st 1989 with two subsidiaries in the North and the South to meet demands of the national economy covering the whole Vietnamese market in oil & gas industry as well as other fields such as tourism, seism survey, aerial photography and film work, search & rescue, medevac, etc. Also in 1989, SFC Vietnam won tender to support major oil & gas companies at international standards. Through its subsidiary - Northern SFC, SFC Vietnam has been entrusted to sign a contract for MIA program, a humanitarian program between the Vietnam and the US Governments for searching the US soldiers missing in action in the Vietnam war. With the aim to maximize efficiency of capital management, in 1994, SFC Vietnam has become the founding shareholder of the Military Commercial Joint-Stock Bank.

1996 marked the reestablishment of SFC Vietnam with 5 subsidiaries. Besides the 2 existing members operating in the core helicopter services, SFC Vietnam adopted 3 members operating in aviation construction. The reestablishment was an important milestone strengthening and boosting SFC Vietnam to new developments and outstanding achievements such as seizing the entire local market for oil & gas support in 1997, training for foreign pilots, exporting helicopter and manpower services to Norwegian market in 2000 as well as many honor title awards.

Service Flight Corporation of Vietnam was renamed as Vietnam Helicopter Corporation (VNH) in 2010 and the subsidiaries were also renamed accordingly as Northern Vietnam Helicopter Company (VNH North) and Southern Vietnam Helicopter Company (VNH South).

In 2012, VNH experienced the most significant change in the organizational structure. VNH currently has 5 subsidiaries: VNH North, VNH South, VNH Training Center, Helicopter Technical Services JSC (Helitechco) and Hai Au Commercial and Trading JSC. Dedicated in more and more professional helicopter operations including helicopter transportation, helicopter technical services as well as training for helicopter manpower in its portfolio, VNH has gained good reputation and firm foothold to satisfy its customers in domestic market and expand into regional and international markets.

» ACTIVITIES

OFFSHORE OIL & GAS OPERATIONS

VNH is the first helicopter services provider for Vietnam's oil & gas industry. Since established, VNH has been providing helicopter services for more than 50 domestic and foreign oil & gas companies such as Vietsovpetro, Shell, BP, Premier Oil, BHP Billiton, Chevron, PETRONAS, JVPC, PVEP, Cuu Long JOC... and is highly valued as one of the leading professional helicopter services providers in Vietnam and in Southeast Asia.

With a modern fleet specialized for offshore operations, for instance EC 225, Super Puma AS 332L2, EC 155B1, Mi-172, Mi-171V and a network of bases throughout the country from Vung Tau, Nam Can, Con Dao, Tan Son Nhat, Da Nang to Gia Lam... VNH is available to satisfy all requirements of oil and gas customers on a 24/7 basis.

ACTIVITIES *(Continued)***MIA PROGRAM**

This program involves searching for deceased US servicemen who were reported missing in action in Vietnam. This joint project between the Vietnam Government and the US Government (briefly called MIA program) began on April 18th 1990.

So far, VNH has performed thousands of flights serving over 120 campaigns mostly in remote forestry and mountainous terrains throughout the entire country.

For many years, the US Government highly appreciates the tight cooperation, dedication, efficiency and competence of VNH towards their searching missions. VNH's efforts in this programme have notably contributed to promote the diplomatic and commercial relations between Vietnam and the USA.

» ACTIVITIES *(Continued)*

HELICOPTER TOURISM

With 25 modern helicopters of 4 to 24 seating capacity, a network of bases nationwide and 50 approved air routes to most of attractive tour destinations (Ha Long, Cat Bi, Mong Cai, Lao Cai, Sapa, Dien Bien Phu, Hoa Binh, Thanh Hoa, Vinh, Hue, Da Nang, Vung Tau, Con Dao, Can Tho, Ca Mau, Phu Quoc...), VNH offers you the extremely fascinating and memorable experience of birds-eye sightseeing.

CHARTER FLIGHTS:

VNH also offers reliable charter service for Aerial photography, Film work; Sports and cultural events; Medevac; Slung Cargo; Search & Rescue and so on.

» ACTIVITIES *(Continued)*

TRAINING

VNH Training Center - Vietnam Helicopter Corporation was established in 2004. The Center has been recognized by Ministry of Defense and certified by the CAAV as type rating training and new pilot training center.

VNH Training is capable of conducting flight training on all types of helicopter: Mi8/17/172, EC 120B, Super Puma L2, EC 225 for ab initio pilots, type rating training, training for flight instructors, pilots in command, IFR training, recurrent training and type rating training for air navigators.

The Training Center also offer ground training for pilots and air navigators, technical and operation staff to perform landing on oil rigs for oil and gas companies.

The Training Center has carried out training for trainees from the Air Force Officer School on Mi8/17/172 helicopters, pilots of the Navy on EC 120B and EC 225 helicopters, Hongkong and Malaysian crew members on Super Puma L2 and EC 225.

The Training Center in combination with the Air Force - Air Defense Institute has offered conversion training for engineers and aviation technical staffs.

ACTIVITIES *(Continued)***TECHNICAL SERVICES**

VNH's Aviation Technical Centers (at VNH South, VNH North and Helitechco) are certified as AMO Maintenance Organization by the CAAV. Helicopter Technical Service JSC (Helitechco) is the only unit in Asia certified by MIL bureau to carry out the overhaul for Mi helicopters and parts.

Our technical centers are capable of overhauling Mi Helicopters, carrying out technical maintenance for Mi helicopters up to 500h. For our Eurocopter fleet (EC 225, Super Puma L2, EC 155B1) we are certified up to 2,250h. We are also authorized for repair and inspection of equipment and parts for Mi and Eurocopter helicopters.

The technical centers have carried out maintenance, repair and overhaul (MRO) for Mi and Eurocopter helicopters for the customers from Vietnam Air Force, Australia, India, Laos, Cambodia, Malaysia, Bangladesh, Sri Lanka...

» HELICOPTER OPERATIONS ABROAD

VNH is one of the leading helicopter operators in Southeast Asia, highly appreciated by its customers and partners in terms of experience and quality of services. Since 2000, VNH has expanded into foreign markets for offshore oil and gas support like Norway, Malaysia, India, Timor Leste and Cambodia.

GENERAL BUSINESSES

VNH's building in Ho Chi Minh City

Petroleum business

Founding shareholder of MB

In order to maximize the efficiency in capital management, VNH has been conducting business projects in import - export, trading and transportation of fuel and petrol, real estate trading, office & ware-house leasing, freight forwarding and logistics services. VNH is also the founding shareholder of Military Commercial Joint Stock Bank, Viet Flight Training JSC, MB Land JSC.

CORPORATE SOCIAL RESPONSIBILITY

VNH always enthusiastically pays attention to social welfare activities such as financing the construction of schools, houses in gratitude of martyrs' families and supporting war invalids. VNH has carried out many survey flights for social and economical development aim in remote areas, supporting people in the areas suffering flood and natural calamity.

A flight for Search and Rescue

Flights to support economic development in remote areas

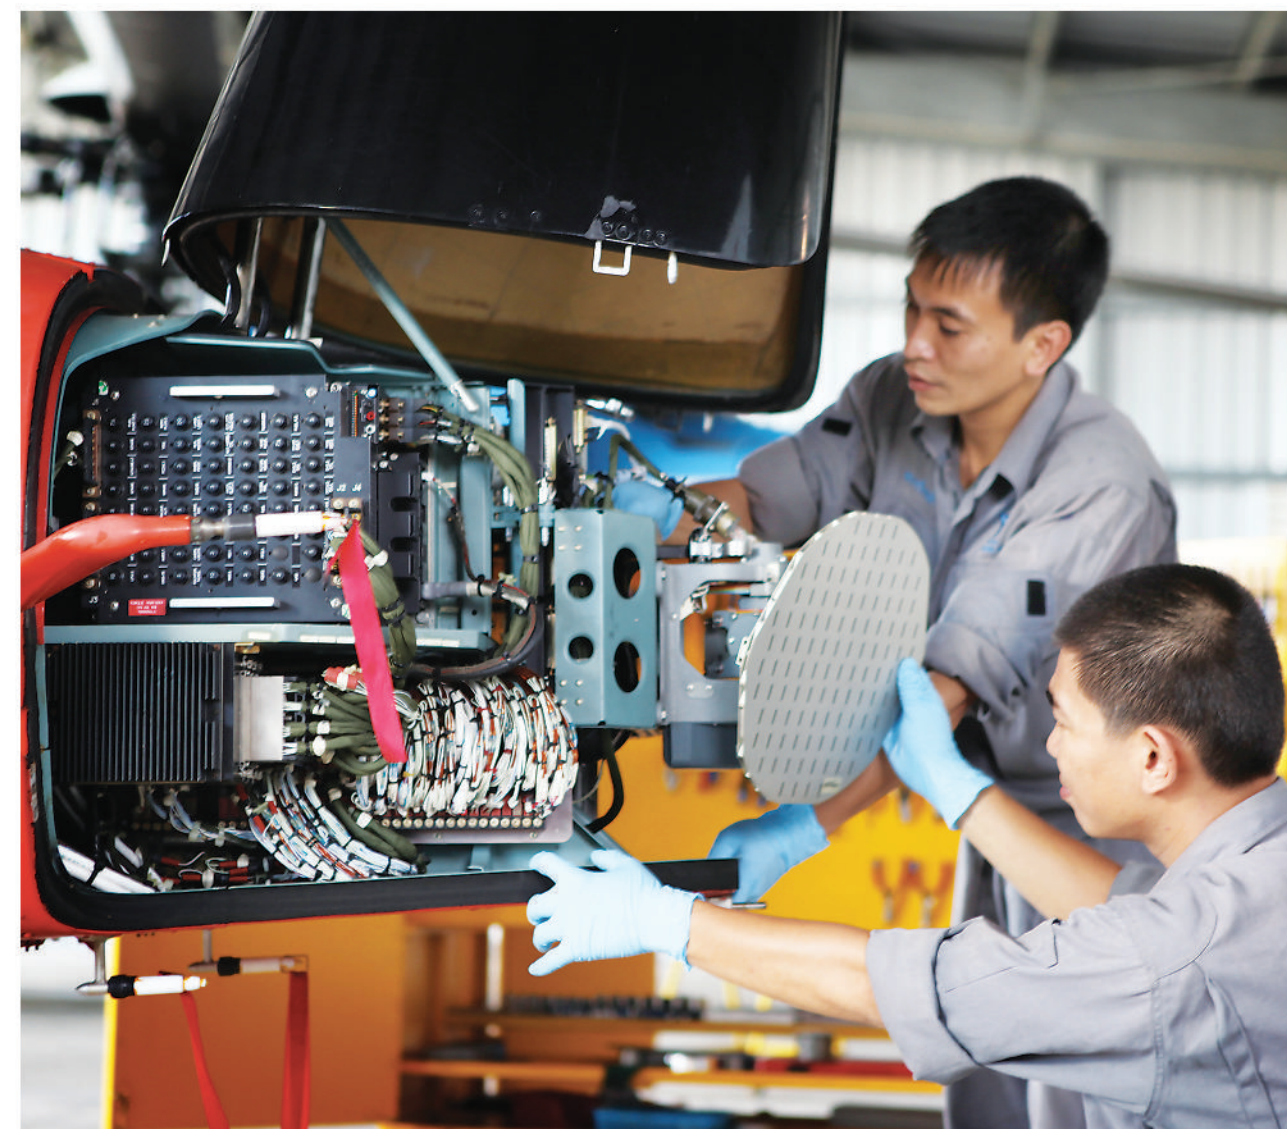

PILOTS

VNH currently employs more than 120 pilots certified by CAAV, who have attended basic, advanced, IFR and flight simulator training in Russia, France, Norway, UK, and USA. 25% of them have more than 5,000 flight hours while 16% of them accomplished over 10,000 flight hours. Much of their experience gained in challenging tasks such as offshore flights for oil & gas exploration and production, serving MIA program, medevac, slung cargo in the mountainous areas, complicated terrains and adverse weather conditions...

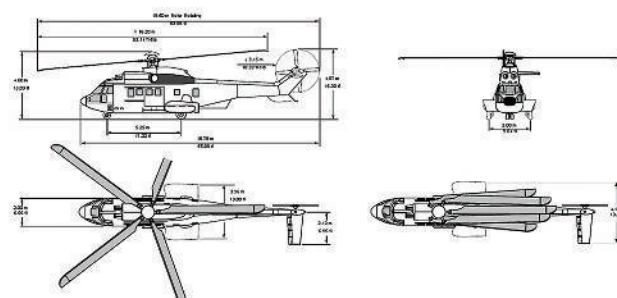

TECHNICAL STAFF

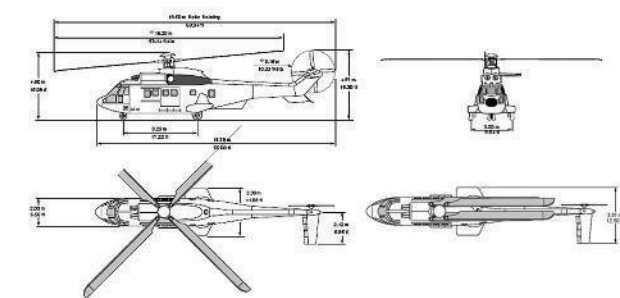

VNH has a technical staff of more than 200 persons who are well trained at domestic and foreign aviation institutes, colleges and holding professional certification of CAAV. They are qualified for maintenance and repair of all types of VNH's helicopters: Mi-172, Mi-17, EC 120, EC 155B1, Super Puma AS 332L2, EC 225, thus ensuring full operational readiness of VNH's fleet for the benefits of our customers on a 24/7 basis.
